## Louisville, Wednesday, and Saturday.

## MONDAY, DECEMBER 17, 3 A.M.

### News Summary.

Sam. McKee announces that he "is a candidate for Congress." He is sure to at home.

Washington special says that the Senate of Congress will be the early part of Dec. 10, as expected. The President will veto the District suffrage bill. A Washington special says the Senate Finance Committee will decide the Christian Commission's proposal to prohibit the sale of Colorado and Nebraska will have to expunge the word "white" from their constitutions to be admitted.

Faymeyer threatens damaging disclosure.

The wife of Senator Fowler, of Tennessee, died in Washington Saturday.

Rev. George W. Matey, of the Methodist Church South, one of the pioneers of Methodism in the West, died in Cincinnati.

The South Carolina Legislative Committee recommended the resolution of the Constitutional Convention also voted against the call for a National Convention.

A letter from Folsom of Princeton of November 23, says that the city of Miramont was almost totally destroyed by fire on the 18th.

L. O. Trimble, of Newark, in New York.

One hundred twenty-five persons were buried by the Patent-office for the week ending Dec. 13th.

DEATH FROM INTEMPERANCE.—On Saturday morning a Swiss, belonging to a wealthy family in the Canton of Argau, Switzerland, left the house of Mr. Meyer, on Portland avenue, where he was boarding, and stepped into a barber-shop to get shaved. He then came out of the barber shop and got his dinner. After dining he said he wanted to go out and take a walk on the commons. He left the house to take the walk, and did not return. Yesterday morning the first tidings Mr. Meyer received of his lodger were that he was lying dead on the commons at the rear of the Marine Hospital. Upon repairing to the spot designated, the unfortunate man was found dead, in a perfectly nude state, save a narrow tie about his neck, and a sock upon one of his feet. At first it was supposed that he had been murdered. Coroner Dick Moore was sent for, an inquest was held upon the body, no marks of violence were found upon it, and the jury returned a verdict that death had resulted from intemperance and exposure.

PERSONAL.—We were glad to meet, yesterday, our friend E. Doug, King, late city editor of the Union and Dispatch, who has deserted the corps reporterial in the interest of his third annual issue of the Nashville City Directory, a publication in which he has been very successful.

As an advertising medium we recommend the Nashville City Directory as the best for our wholesale merchants who desire the Southern trade. Mr. King has an extensive acquaintance South, and his directory has a circulation through Northern Alabama and Georgia, as well as Middle Tennessee, that will make it especially valuable to our wholesale merchants.

On Saturday last we had the pleasure of meeting with our friend General and former townsmen Emil Bonsdorff, now of the Burnet House, in Cincinnati. Wherever the good looking and smiling face of Emil is introduced it will be a passport to friendship. Mr. Bonsdorff is on his way to New Orleans where we hope the sunny climate of the South will contribute much to his enjoyment and gratification.

MASONIC INSTALLATION.—The officers of Pelican Chapter Rose Croix, 18th degree A. and A. S. R., were installed by the M. P. G. Consistory of Kentucky on Friday, December 14, 1866, as follows: Horace Gooch, M. W.; Wm. E. Robinson, S. W.; Wm. A. Warner, J. W.; C. G. Davison, Orator; Wm. Kerr, Almoner; B. G. Hawkins, Secretary; Wm. Cromey, Treasurer; Geo. F. Evans, S. B.; W. G. Gray, M. of C. R. V. Smoodnig, M. P.; C. C. Spencer, G. of T.; H. Hudson, Tyler.

MURDERER CAUGHT.—About the middle of October last a man named William Bell shot and killed a discharged soldier, named Antony Cardiff, at Owenton, Ky., and made his escape. His whereabouts were unknown until a few days ago, when he was arrested at Kokomo, Tenn., by the military. He was brought to this city on Saturday and lodged in the military prison. He will be tried before the United States Court.

FATAL RAILROAD ACCIDENT.—On Friday night last, Mr. James Smallwood, an old and esteemed citizen of Elizabethon, went on the upward-bound train, intending to come to this city. At Belmont he attempted to step from the cars, when his foot slipped and he fell under the train, which passed over his body, causing instant death. The train was stopped, and the remains taken on board and brought to this city.

LOUISVILLE CENSUS.—Mayo Lithgow has been authorized to advertise for bids for the taking of a complete census of Louisville. The work will undoubtedly be done as promptly as possible, and, when done, it will greatly exalt the importance of Louisville throughout the country.

Even our citizens have no idea what a great city they live in.

BALL.—Monday, January 16th, the Odd-fellows ball comes off at the Masonic Temple. Preparations for five hundred couples have been made. It will be a grand affair.

CONSUL OF COSTA RICA.—Allan A. Burton, of Lancaster, Ky., has been recognized by the President as Consul of Costa Rica for this State, to reside in this city.

The question immediately before Congress seems to be whether the negroes in the District of Columbia shall vote in the affairs of that district.

The train that left this city for Bardstown on Saturday afternoon, was thrown from the track at the junction, causing a delay of several hours.

## AN ATROCIOUS MURDER.

### A Cincinnati "Drummer" Killed in Cold Blood.

#### Testimony Before the Coroners' Jury.

#### Letters Found Upon the Murdered Man's Person.

#### CITY DEMOCRATIC CONVENTION.

#### National Convention Called For.

#### On Saturday a large number of Democrats met in the County Court-room to organize and prepare for the State Convention to be held at Frankfort on the 22d of February next.

General H. E. Read was chosen chairman, and James P. Chambers was elected secretary.

On motion of J. Hop. Price, Esq., a committee was appointed, consisting of one from each legislative district, one from the county at large, and two from the city at large, to appoint delegates to the State Convention. The following are the committee:

From the County—W. D. Meriwether, A. Pennington, E. G. Geoghegan, L. G. Smith.

For the City—W. K. Thomas and Gen. Jackson, J. C. Harlan, J. C. Harlan, Jr., John Churchill, Third District, and John C. Harlan, Second District.

Pais, Dec. 15, M.

The United States Government has  
ordered the payment of one hundred and  
fifty million francs from its treasury to  
cover the cost of pending acts to recover  
money paid for building ships in France.  
Our consul stated that serious diplomatic  
and military difficulties now exist in  
relation to the claims of the Fenians  
against England for building Con-  
federate cruisers and for depredations  
they had committed on American  
commerce.

WASHINGTON, Dec. 14.

The Senate Finance Committee took up  
the House bill of last session. They  
agreed to consider the bill on the 20th  
inst., and continue its consideration dur-  
ing the next session. The Committee on  
the Commission's Well's proposed ser-  
vice tariff bill will be presented by the  
20th, and the committee will then consider  
the two bills together.

It is rumoured that it is contemplated to  
establish here an Official Gazette, which  
will contain exclusively all Government  
announcements and advertisements, thus  
avoiding the present squabble among  
Washington papers as regards official ad-  
vertisements.

In the Supreme Court yesterday the fol-  
lowing cases were taken up: No. 6, origi-  
nal ex parte, A. H. Garland, of Arkansas,  
and No. 8, original ex parte, R. E. Marr,  
of Louisiana. The former was a suit to  
resume practice in the United States  
Courts without subscribing to the test-  
oath; the motion of Mr. Sheroed to post-  
pone the argument was overruled. No.  
10, ex parte, Milwaukee and Winona  
Railroad Company, petitioner; on  
motion for mandamus, argued, No. 353.  
Milwaukee and Union Railroad Company  
appellant against J. T. Sonter, and No.  
354, Milwaukee and Union Railroad Company  
against J. L. Sonter, motion to vacate, suspend,  
and dismiss argued. Adjourned till Mon-  
day.

RICHMOND, VA., Dec. 15.

Gen. Schofield has decided to hold Dr.  
Watson to trial for the murder of the  
negro, and the case will be previously re-  
ferred to him by a jury.

Three white men were killed and several  
negroes and whites wounded in a riot at  
Portsmouth, Va., yesterday. Four build-  
ings were also burnt.

MILKINGEVILLE, Dec. 15.

The Legislature adjourned yesterday.  
The opinion of the Legislature favors ter-  
ritorial government, and in accepting the  
constitutional amendment.

NEW YORK, Dec. 15.

The "Ring" papers here are made up  
entirely from pickings and stealings of  
telegraph news of the United States and  
European News Association.

There is no paper that has  
any news of consequence.

By the explosion of a barrel of burning  
fluid in the kitchen of the Compton House  
last evening, two persons were killed and  
six others severely injured. The Compton,  
the proprietor, escaped, among the latter.

Haiminger's stove factory, Liberty  
street, was damaged by fire to the amount of  
about \$20,000 last night. Mackey &  
Co., the proprietors, were also burned.  
Loss about \$7,000.

Four persons were arrested yesterday  
with defrauding the revenue of \$200,000  
by false returns of manufactured tobacco.

CINCINNATI, Dec. 15.

A special deputation from Chicago to the  
Gazette says: A meeting of the western  
newspaper publishers, who are members  
of the Western Associated Press, was held  
at the Remond Hotel, in Remond, in re-  
sponse to the request of Messrs. Remond  
and Beach, of the old monopoly, for the  
purposes of listening to any proposition  
those gentlemen might have to make in be-  
half of the New York Associated. Pre-  
sent at the meeting, and it is to be remem-  
bered that he was authorized to say to them  
that if twenty western publishers would  
form an association in opposition to  
the Western Associated Press the New  
York Associated would do so. With their  
despatches at the rate of three thousand  
four hundred dollars per month,  
or forty thousand eight hundred dollars  
per annum. This proposition was rejected  
with a unanimous vote, and no attempt  
was made to form a new association.

ST. LOUIS, Dec. 15.

The Santa Fe papers report that Indian  
outrages are frequent. One hundred and  
fifty attacked the town of Alamosa,  
and killed three men, wounded three  
others, and carried off a large quantity of  
grain and nearly all the live stock in the  
place.

A memorial to the Washington authori-  
ties is published in the New Mexican,  
which the Comanches, Navahos, Apaches,  
and Utes are constantly commiting murders  
and robberies, which we are convinced,  
will never cease until they are effectually  
checked and placed under control.

The memorial also asks that authority  
be given the Governor to reorganize two  
regiments of the New Mexican volunteers  
for at least two years service.

The Remond Hotel at Goldens  
City on the 4th. E. Berthold was  
elected Speaker of the House, and J. Mc-  
Dowell Clerk.

Gen. Grant held a review at the Lindell  
Hotel, last Friday. A large number of cie-  
zars paid their respects.

Twenty persons escaped from the St.  
Joseph jail yesterday.

CINCINNATI, Dec. 15.

River failed two feet four inches, with  
twenty-five feet two inches in the channel.  
Weather cloudy. Thermometer 28°.

PORTLAND, Dec. 15.

Robinson's woolen mill in Oxford was  
burned last night.

NEW YORK, Dec. 15.

The steamers City of Paris, Europe,  
and America, took out to-day a million in  
specie.

PITTSBURG, Dec. 15.

River five feet and cool. Weather  
clear and cool.

CINCINNATI, Dec. 15.

Alex. Plummer and James Barnes, con-  
victed of murder and under sentence of  
death in Pendleton county, Ky., for kill-  
ing Leonard Moss about one year ago, es-  
caped from the Falmouth (Ky.) jail this  
morning.

## THE STEAMBOAT LAW.

The Enclosed Safety-valve and  
Supervising Inspectors.

We call particular attention to the fol-  
lowing article, as it contains the views of  
a gentleman of large experience and  
much practical knowledge in the use and  
management of the steam engine as a  
motive power, as used on the boats of our  
Western rivers:

(For the Louisville Journal.)

In connection with this subject we in-  
tend to notice briefly the steamboat law,  
the supervising and local inspectors, the  
explosion of boilers, and the causes.

Mr. W. C. Carter, the Gen. Lytle, well and sub-  
stantially built for the transportation of both  
freight and passengers, their cabins elegantly and comfortably furnished, and  
with every modern invention and improve-  
ment, has been the most popular boat ever  
graduated them from explosion, as the best  
engineering skill the country affords,  
soil, industrial products, and shiffler  
would, in their profession, explode their  
boilers, and were not as strong as iron of the  
required thickness, he which the inspection  
would be which opinion the  
steamship would have taxed  
their ingenuity to get up a table that have  
for its object the intent to defeat the  
whole object and aim for which the law  
was made, and to do which the law  
was not strong as iron of the  
required thickness, he which the inspection  
would be which opinion the  
steamship would have taxed  
their ingenuity to get up a table that have  
for its object the intent to defeat the  
whole object and aim for which the law  
was made, and to do which the law  
was not strong as iron of the  
required thickness, he which the inspection  
would be which opinion the  
steamship would have taxed  
their ingenuity to get up a table that have  
for its object the intent to defeat the  
whole object and aim for which the law  
was made, and to do which the law  
was not strong as iron of the  
required thickness, he which the inspection  
would be which opinion the  
steamship would have taxed  
their ingenuity to get up a table that have  
for its object the intent to defeat the  
whole object and aim for which the law  
was made, and to do which the law  
was not strong as iron of the  
required thickness, he which the inspection  
would be which opinion the  
steamship would have taxed  
their ingenuity to get up a table that have  
for its object the intent to defeat the  
whole object and aim for which the law  
was made, and to do which the law  
was not strong as iron of the  
required thickness, he which the inspection  
would be which opinion the  
steamship would have taxed  
their ingenuity to get up a table that have  
for its object the intent to defeat the  
whole object and aim for which the law  
was made, and to do which the law  
was not strong as iron of the  
required thickness, he which the inspection  
would be which opinion the  
steamship would have taxed  
their ingenuity to get up a table that have  
for its object the intent to defeat the  
whole object and aim for which the law  
was made, and to do which the law  
was not strong as iron of the  
required thickness, he which the inspection  
would be which opinion the  
steamship would have taxed  
their ingenuity to get up a table that have  
for its object the intent to defeat the  
whole object and aim for which the law  
was made, and to do which the law  
was not strong as iron of the  
required thickness, he which the inspection  
would be which opinion the  
steamship would have taxed  
their ingenuity to get up a table that have  
for its object the intent to defeat the  
whole object and aim for which the law  
was made, and to do which the law  
was not strong as iron of the  
required thickness, he which the inspection  
would be which opinion the  
steamship would have taxed  
their ingenuity to get up a table that have  
for its object the intent to defeat the  
whole object and aim for which the law  
was made, and to do which the law  
was not strong as iron of the  
required thickness, he which the inspection  
would be which opinion the  
steamship would have taxed  
their ingenuity to get up a table that have  
for its object the intent to defeat the  
whole object and aim for which the law  
was made, and to do which the law  
was not strong as iron of the  
required thickness, he which the inspection  
would be which opinion the  
steamship would have taxed  
their ingenuity to get up a table that have  
for its object the intent to defeat the  
whole object and aim for which the law  
was made, and to do which the law  
was not strong as iron of the  
required thickness, he which the inspection  
would be which opinion the  
steamship would have taxed  
their ingenuity to get up a table that have  
for its object the intent to defeat the  
whole object and aim for which the law  
was made, and to do which the law  
was not strong as iron of the  
required thickness, he which the inspection  
would be which opinion the  
steamship would have taxed  
their ingenuity to get up a table that have  
for its object the intent to defeat the  
whole object and aim for which the law  
was made, and to do which the law  
was not strong as iron of the  
required thickness, he which the inspection  
would be which opinion the  
steamship would have taxed  
their ingenuity to get up a table that have  
for its object the intent to defeat the  
whole object and aim for which the law  
was made, and to do which the law  
was not strong as iron of the  
required thickness, he which the inspection  
would be which opinion the  
steamship would have taxed  
their ingenuity to get up a table that have  
for its object the intent to defeat the  
whole object and aim for which the law  
was made, and to do which the law  
was not strong as iron of the  
required thickness, he which the inspection  
would be which opinion the  
steamship would have taxed  
their ingenuity to get up a table that have  
for its object the intent to defeat the  
whole object and aim for which the law  
was made, and to do which the law  
was not strong as iron of the  
required thickness, he which the inspection  
would be which opinion the  
steamship would have taxed  
their ingenuity to get up a table that have  
for its object the intent to defeat the  
whole object and aim for which the law  
was made, and to do which the law  
was not strong as iron of the  
required thickness, he which the inspection  
would be which opinion the  
steamship would have taxed  
their ingenuity to get up a table that have  
for its object the intent to defeat the  
whole object and aim for which the law  
was made, and to do which the law  
was not strong as iron of the  
required thickness, he which the inspection  
would be which opinion the  
steamship would have taxed  
their ingenuity to get up a table that have  
for its object the intent to defeat the  
whole object and aim for which the law  
was made, and to do which the law  
was not strong as iron of the  
required thickness, he which the inspection  
would be which opinion the  
steamship would have taxed  
their ingenuity to get up a table that have  
for its object the intent to defeat the  
whole object and aim for which the law  
was made, and to do which the law  
was not strong as iron of the  
required thickness, he which the inspection  
would be which opinion the  
steamship would have taxed  
their ingenuity to get up a table that have  
for its object the intent to defeat the  
whole object and aim for which the law  
was made, and to do which the law  
was not strong as iron of the  
required thickness, he which the inspection  
would be which opinion the  
steamship would have taxed  
their ingenuity to get up a table that have  
for its object the intent to defeat the  
whole object and aim for which the law  
was made, and to do which the law  
was not strong as iron of the  
required thickness, he which the inspection  
would be which opinion the  
steamship would have taxed  
their ingenuity to get up a table that have  
for its object the intent to defeat the  
whole object and aim for which the law  
was made, and to do which the law  
was not strong as iron of the  
required thickness, he which the inspection  
would be which opinion the
